## PRESENTATION OF FINANCIAL AND OTHER INFORMATION

### Financial information and operational data

Unless otherwise indicated, all financial information in this report has been prepared in accordance with IFRS applicable at the relevant date and is presented in Euros. IFRS differs in certain significant respects from generally accepted accounting principles in the US.

We have presented certain information in this report that has not been prepared in accordance with IFRS or any other accounting standards. As used in this report, this information includes "EBITDA", which represents operating profit before amortization, impairment and depreciation. This report also contains other measures such as: cash, cash equivalent and current financial assets, total financial debt and net financial debt. We present these non-IFRS measures because we believe that they and similar measures are widely used by certain investors, securities analysts and other interested parties as supplemental measures of performance and liquidity.

In particular, we believe that EBITDA is meaningful for investors because it provides an analysis of our operating results, profitability and ability to service debt and because EBITDA is used by our chief operating decision makers to track our business evolution, establish operational and strategic targets and make important business decisions. To facilitate the analysis of our operations, this indicator excludes amortization, impairment and depreciation expenses from operating profit in order to eliminate the impact of general long-term capital investment. Although we are presenting this measure to enhance the understanding of our historical operating performance, EBITDA should not be considered an alternative to operating profit as an indicator of our operating performance, or an alternative to cash flows from operating activities as a measure of our liquidity. The presentation of these measures is not intended to and does not comply with the reporting requirements of the SEC; compliance with its requirements would require us to make changes to the presentation of this information.

Rounding adjustments have been made in calculating some of the financial information included in this report. Figures shown as totals in some tables and elsewhere may not be exact arithmetic aggregations of the figures that precede them.

### Industry data

In this report, we may rely on and refer to information regarding our business and the market in which we operate and compete. We have obtained this information from various third party sources, including providers of industry data, discussions with our customers and our own internal estimates. We cannot assure you that any of this information is accurate or correctly reflects our position in the industry, and none of our internal surveys or information has been verified by any independent sources. We do not make any representation or warranty as to the accuracy or completeness of any such information set forth in this report.

### Forward looking statements and other qualifications

The following discussion and analysis is based on and should be read in conjunction with our historical financials included elsewhere in this quarterly report. Certain capitalized terms used herein have the meaning set out in the offering memorandum for our senior secured notes due 2020.

The discussion includes forward looking statements, which, although based on assumptions that we consider reasonable, are subject to risks and uncertainties, which could cause actual events or conditions to differ materially from those implied herein. You are cautioned not to place undue reliance on these forward looking statements. These forward statements are made as of the date of this report and are not intended to give any assurance as to future results.

## First quarter of 2016 compared to first quarter of 2015

### Revenue

Revenue increased by € 96.1 million, or 5.6%, to € 1,805.5 million in the first quarter of 2016 compared to sales of € 1,709.4 million in the first quarter of 2015. Our sales growth outpaced the 2.6% increase in market production volumes in our manufacturing footprint in the first quarter of 2016 compared with the first quarter of 2015 as a result of the start in production and ramp up of new projects primarily in the United States, Mexico, Spain and China. The increase in revenue is attributable primarily to sales increases of € 66.4 million in North America, € 50.9 million in Western Europe and € 27.0 million in Asia, offset in part by sales decreases in Mercosur of € 43.3 million and in Eastern Europe of € 4.9 million. The decline in sales in South America is driven by a 27.0% drop in the volume of production in the region.

| | First Quarter | | |
|---|---|---|---|
| | 2015 | 2016 | % Change |
| **Revenue** | | (Millions of Euros) | |
| Body-in-White and Chassis | 1,432.8 | 1,525.8 | 6.5% |
| Mechanisms | 209.3 | 220.6 | 5.4% |
| Toolings and Others | 67.3 | 59.1 | -12.2% |
| **Total** | **1,709.4** | **1,805.5** | **5.6%** |

*Body-in-White and Chassis.* Revenue increased by € 93.0 million, or 6.5%, to € 1,525.8 million in the first quarter of 2016 from € 1,432.8 million in the first quarter of 2015. This increase was attributable primarily to increases of sales in North America of € 58.9 million, in Western Europe of € 55.6 million (mainly in Germany, Spain and United Kingdom) and in Asia of € 17.3 million (mainly in China and India), offset by a decrease of sales in Mercosur of € 38.1 million and in Eastern Europe of € 0.7 million.

*Mechanisms.* Revenue increased by € 11.3 million, or 5.4%, to € 220.6 million in the first quarter of 2016 from € 209.3 million in the first quarter of 2015. This increase was attributable primarily to an increase of sales in China, Spain and Germany, offset by a decrease of sales in France, Brazil and Slovakia.

*Tooling and Other.* Revenue decreased by € 8.2 million, or 12.2%, to € 59.1 million in the first quarter of 2016 from € 67.3 million in the first quarter of 2015. This decrease was attributable primarily to a decrease in sales in Western Europe (mainly in Spain and the United Kingdom) by € 9.6 million, in Eastern Europe by € 3.5 million and in Mercosur by € 2.9 million, mitigated by an increase in North America by € 6.5 million and in Asia by € 1.3 million.

**Operating expenses**

*Raw materials and other consumables*. Expenses on raw materials and other consumables increased by € 10.1 million, or 1.0%, to € 1,067.3 million in the first quarter of 2016 from € 1,057.2 million in the first quarter of 2015. The increase in raw materials and other consumables expenses in the first quarter of 2016 is mainly due to higher sales volumes in North America, Western Europe and Asia.

*Personnel Expenses*. Personnel expenses increased by € 17.7 million, or 5.7%, to € 326.9 million in the first quarter of 2016 from € 309.2 million in the first quarter of 2015, mainly in Western Europe, North America and Asia, consistent with the increase of sales.

*Depreciation, amortization and impairment losses.* Depreciation expense increased by € 2.9 million, or 3.2%, to € 93.2 million in the first quarter of 2016 from € 90.3 million in the first quarter of 2015, largely as a result of depreciation of new investments carried out during 2015, largely in USA, China, Spain and United Kingdom.

*Other operating expenses.* Other operating expenses increased by € 30.4 million, or 14.6%, to €238.9 million in the first quarter of 2016 from € 208.5 million in the first quarter of 2015. This increase was primarily due to higher sales volume in North America, Western Europe and Asia leading to increased recruitment of temporary workers, as well as higher maintenance costs. This increase was offset by a decrease in other operating expenses due to lower sales in Mercosur.

**Operating profit or loss**

Operating profit increased by € 7.9 million, or 8.7%, to € 99.2 million in the first quarter of 2016 from € 91.3 million in the first quarter of 2015. This increase is primarily due to a higher volume of activity in 2016 compared to the first quarter in 2015, and a lower percentage increase in operating costs based on operating leverage in our cost base.

**EBITDA**

EBITDA increased by € 10.8 million, or 5.9%, to € 192.4 million in the first quarter of 2016 from € 181.6 million in the first quarter of 2015. This increase is primarily attributable to the higher volume of activity in Western Europe, North America and Asia in the first quarter of 2016 compared to the comparable period in 2015, offset by lower volume of activity in Mercosur and Eastern Europe.

**Net financial income (expenses)**

Net financial expenses decreased by € 5.8 million, or 18.9%, to € 24.9 million in the first quarter of 2016 from € 30.7 million in the first quarter of 2015. This decrease is primarily due to lower average interest rates and the renegotiation of loan interest margins with financial entities.

**Exchange gains (losses)**

In the first quarter of 2016, there were exchange losses of € 5.3 million while in the first quarter of 2015 there were exchange gains of € 36.2 million. The exchange losses in the first quarter of 2016 were primarily due to the appreciation of the Euro during the quarter, mainly against the currencies of the United Kingdom, United States, Argentina, Russia and China.

**Income tax**

Income tax expense decreased by € 16.1 million, to € 17.3 million during the first quarter of 2016 from € 33.4 million during the first quarter of 2015. This decrease is primarily due to lower results obtained in countries with higher tax rates such as Brazil and Argentina, and the generation of profits in entities where historical NOL's had not been recognized as tax credits for accounting purposes.

**Profit attributable to non-controlling interests**

Profit attributable to non-controlling interests decreased by € 4.2 million to € 9.9 million in the first quarter of 2016 from € 14.1 million in the first quarter of 2015, largely as a result of lower results in operations with minority partners.

| **Cash in assets held for sale** | **0.0** | **0.0** |
| **NET INCREASE/ DECREASE OF CASH OR CASH EQUIVALENTS** | **-59.1** | **-82.0** |

**Cash flow from operating activities**
Cash flow from operating activities increased by € 31.3 million to a net amount of € 34.2 million during the first quarter of 2016 from a net amount € 2.9 million in the first quarter of 2015, primarily due to a reduction in the cash used for working capital, as well as lower cash interest expense.

**Cash flow from (used in) investing activities**
Cash flow used in investing activities decreased by € 24.1 million in the first quarter of 2016 to € 147.7 million from € 171.8 million during the first quarter of 2015. The cash flow used in the first quarter of 2016 was primarily for investments in projects in North America, Poland, China, Germany, Spain and the United Kingdom.

**Cash flow from (used in) financing activities**
Cash flow from financing activities amounted to € 38.5 million during the first quarter of 2016, primarily due to a net increase in interest-bearing loans and borrowings and use of credit lines.

**Liquidity**
Our principal source of liquidity is our operating cash flow, which is analyzed above. Our ability to generate cash from our operations depends on our future operating performance, which is in turn dependent, to some extent, on general economic, financial, competitive, market, regulatory and other factors, many of which are beyond our control.

Our long-term indebtedness primarily consists of € 789.0 million Euros in senior secured notes; € 498.0 million in long-term portion of a funded senior secured amortizing Term Loan (part of the Senior Financing Agreement, or "SFA", originally syndicated on April 19, 2013, of which an additional € 280 million is in the form of an undrawn Revolving Credit Facility); and € 50.9 million of aggregate principal amount in other long-term financing.

On May 11, 2016 we issued € 500 million of new senior secured notes due May 15, 2023 and on May 20, 2016 we signed an amendment and restatement of our SFA according to which, among other things, we agreed an increase in the availability of the Term Loan component of the SFA by € 340 million and extended the maturity of the Term Loans and the RCF to May 31, 2021. On June 6 and June 20, 2016 respectively we will fully redeem the remaining outstanding Euro and USD senior secured notes due May 2020, with proceeds from the aforementioned new senior secured notes and the increase in the SFA.

Although we believe that our expected cash flows from operations, together with available borrowings and cash on hand, will be adequate to meet our anticipated liquidity and debt service needs, we cannot assure you that our business will generate sufficient cash flows from operations or that future debt and equity financing will be available to us in an amount sufficient to enable us to pay our debts when due, including the notes, or to fund our other liquidity needs.

We believe that the potential risks to our liquidity include:

- a reduction in operating cash flows due to a lowering of operating profit from our operations, which could be caused by a downturn in our performance or in the industry as a whole;
- the failure or delay of our customers to make payments due to us;
- a failure to maintain low working capital requirements; and
- the need to fund expansion and other development capital expenditures.

If our future cash flows from operations and other capital resources (including borrowings under our current or any future credit facilities) are insufficient to pay our obligations as they mature or to fund our liquidity needs, we may be forced to:

- reduce or delay our business activities and capital expenditures;
- sell our assets; or
- obtain additional debt or equity financing.

As market conditions warrant, we may from time to time purchase, redeem, repurchase, prepay, cancel or otherwise restructure or refinance all or a portion of our indebtedness including debt under the notes and the Senior Facilities, in privately negotiated transactions, open market transactions or otherwise. We cannot assure you that we would be able to accomplish any of these alternatives on a timely basis or on satisfactory terms, if at all. In addition, the terms of the notes and any future debt may limit our ability to pursue any of these alternatives.

We are leveraged and have debt service obligations. We anticipate that our leverage will continue for the foreseeable future. Our level of debt may have important negative consequences for you.

**Working capital**

The table below shows the sources (and uses) of cash related to working capital during the periods indicated.

| | First Quarter | |
|---|---|---|
| | **2015** | **2016** |
| | *(Millions of Euros)* | |
| **Changes in working capital** | **-161.6** | **-131.6** |
| (Increase)/Decrease in Inventories | -111.0 | -35.3 |
| (Increase)/Decrease in Trade and other receivables | -112.7 | -195.7 |
| (Increase)/Decrease in Other current assets | -4.8 | -7.3 |
| Increase/(Decrease) in Trade and other payables | 67.8 | 111.3 |
| Increase/(Decrease) in Other current liabilities | -0.9 | -4.6 |

Our working capital requirements largely arise from our trade and other receivables, which are primarily composed of amounts owed to us by our customers, inventories primarily composed of raw materials (mainly steel) and other current assets which comprise receivables accounts with the public treasury by the advanced payments of taxes or refunds of taxes. Our trade and other payables primarily relate to trade payables to our suppliers for raw materials and services, other amounts to the public treasury for taxes and payments to our employees by way of salaries. We have historically funded our working capital requirements through funds generated from our operations, from borrowings under bank facilities and through funds from other financing sources.

Net working capital requirements increased by € 131.6 million during the first quarter of 2016 due essentially to an increase in the average days for collections from customers and an increase in raw material days in the first quarter of 2016 compared to the fourth quarter of 2015, offset in part by an increase in average days for payment to suppliers in the first quarter of 2016 with respect to the fourth quarter of 2015. In addition, the amount of receivables related to customer tooling increased during the quarter by € 61.6 million.

Net working capital requirements increased by € 161.6 million during the first quarter of 2015 due essentially to an increase in volume of activity in the first quarter of 2015 compared to the fourth quarter of 2014, and an increase in raw material days in the first quarter of 2015 by 2 days with respect to year-end 2014. The average days for payment to suppliers in the first quarter of 2015 increased by 5 days with respect to year-end 2014; and the average days for collections from customers in the first quarter of 2015 increased by 8 days with respect to year-end 2014, and the amount of receivables related to customer tooling decreased during the quarter by € 35.1 million.

## Investments in fixed assets

| | First Quarter | |
|---|---|---|
| | 2015 | 2016 |
| | *(Millions of Euros)* | |
| **Capital expenditures** | | |
| Intangible assets | 15.6 | 15.7 |
| Tangible assets | 85.8 | 117.1 |
| **Total** | **101.4** | **132.8** |
| **Net payments on investments** | | |
| Intangible assets | 15.7 | 15.3 |
| Tangible assets | 147.0 | 131.6 |
| **Total** | **162.7** | **146.9** |

Investments in fixed assets during the first quarter of 2015 and 2016 amounted to approximately € 101.4 million and € 132.8 million, respectively. Investments in fixed assets primarily consists of expenditure on property, plant and equipment. This includes expenditure on new manufacturing plants and expansion of existing plant capacity for new production lines, maintenance capital expenditure comprised of expenditures on maintenance of machinery and buildings, improvements of existing plants driven by health and safety and noise reduction concerns and replacement capital expenditure incurred in relation to changes to our production platforms in connection with new models. Replacement capital expenditure is primarily incurred in connection with updating our welding and assembly cells and equipment, given that the most costly categories of our infrastructure, such as land, buildings and press equipment, have long lives and can be adapted with relatively low expenditure for replacement or renewal business.

Investments in fixed assets also includes expenditure on intangible assets, such as research and development costs.

Net payments on investments reflect actual cash outlays for fixed assets, taking into account increases and decreases in payables to our suppliers of fixed assets, as well as proceeds from divestments of fixed assets, and amounted to approximately € 162.7 million and € 146.9 million during the first quarter of 2015 and 2016 respectively.

## Contractual obligations

We have contractual commitments providing for payments primarily pursuant to our outstanding financial debt, including the financial obligations arising from the senior secured notes but excluding financial derivatives.

| | As of March 31, 2016 | | | |
|---|---|---|---|---|
| | Total | Less than 1 year | 1 - 5 years | More than 5 years |
| | *(Millions of Euros)* | | | |
| **Contractual obligations** | | | | |
| Interest bearing loans and borrowings | 1,781.3 | 443.4 | 1,335.6 | 2.3 |
| Financial leases | 32.2 | 4.5 | 9.6 | 18.1 |
| Borrowings from associated companies | 72.7 | 3.9 | 68.8 | 0.0 |
| Other financial debts | 33.2 | 0.0 | 21.6 | 11.6 |
| **Total Financial Debts** | **1,919.4** | **451.8** | **1,435.6** | **32.0** |
| Operating leases | 437.7 | 73.7 | 238.1 | 125.9 |
| Non interest bearing loans | 14.1 | 0.0 | 11.2 | 2.9 |
| Current non-trade liabilities | 132.8 | 132.8 | 0.0 | 0.0 |
| **Total Contractual Obligations** | **2,504.0** | **658.3** | **1,684.9** | **160.8** |

## Other Financial Data

| | YTD March 31, | |
|---|---|---|
| | 2015 | 2016 |
| | *(Millions of Euros)* | |
| **Other Financial Data** | | |
| EBITDA [1] | 181.6 | 192.4 |
| Cash, cash equivalent and current financial assets | 539.8 | 290.2 |
| Total Financial Debt | 2,100.5 | 1,919.4 |
| **Total Net Financial Debt** | **1,560.7** | **1,629.2** |

(1) "EBITDA" represents operating profit before depreciation, amortization and impairment losses. Our management believes that EBITDA is meaningful for investors because it provides an analysis of our operating results, profitability and ability to service debt and because EBITDA is used by our chief operating decision makers to track our business evolution, establish operational and strategic targets and make important business decisions. EBITDA is also a measure commonly reported and widely used by analysts, investors and other interested parties in our industry. To facilitate the analysis of our operations, this indicator excludes amortization, impairment and depreciation expenses from operating profit in order to eliminate the impact of general long-term capital investment. Although we are presenting this measure to enhance the understanding of our historical operating performance, EBITDA should not be considered an alternative to operating profit as an indicator of our operating performance, or an alternative to cash flows from operating activities as a measure of our liquidity. The following table presents the calculation of this measure:

| | YTD March 31, | |
|---|---|---|
| | 2015 | 2016 |
| | *(Millions of Euros)* | |
| **Operating profit** | 91.3 | 99.2 |
| *Adjusted for:* | | |
| Depreciation, amortization and impairment losses | 90.3 | 93.2 |
| **EBITDA** | **181.6** | **192.4** |

(2) Total financial debt consists of interest-bearing loans and borrowings, financial leasing, borrowings from associated companies, loans from the Ministry of Science and Technology and other interest bearing loans but does not include derivative financial instruments, non-interest bearing loans, other current non-trade liabilities, deferred income, provisions, deferred tax liabilities, trade and other payables and other liabilities. Net financial debt consists of total

financial debt less cash and cash equivalents and current financial assets. The following table presents a calculation of these measures.

| | YTD March 31, | |
|---|---|---|
| | 2015 | 2016 |
| | *(Millions of Euros)* | |
| Interest bearing loans and borrowings | 1,913.2 | 1,781.3 |
| Financial leasing | 31.1 | 32.2 |
| Borrowings from associated companies | 100.2 | 72.7 |
| Other financial debts | 56.0 | 33.2 |
| **Total Financial Debt** | **2,100.5** | **1,919.4** |
| Cash, cash equivalents and current financial assets | 539.8 | 290.2 |
| **TOTAL NET FINANCIAL DEBT** | **1,560.7** | **1,629.2** |

Cash, cash equivalents and current financial assets includes cash and cash equivalents as of March 31, 2016 of € 274.0 million and current financial assets as of March 31, 2016 of € 16.2 million (including loans and receivables, securities and other current financial assets).
