

# GESTAMP IN THE VEHICLE LIFECYCLE

As members of the automotive industry, our environmental performance must be analyzed from the standpoint of the lifecycle of the vehicle, taking into account impacts and solutions at each of the stages.

## IMPACT OF GESTAMP

- 1 PRODUCT DEVELOPMENT**

Through our R&D, our technological development and in collaboration with our suppliers, we offer solutions for weight reduction of the pieces we produce, one of the key factors to reduce emissions produced during the vehicle's use.

---

- 2 RAW MATERIAL PROCESSING**

At Gestamp, we use environmental criteria when selecting suppliers of raw materials and components.

---

- 3 PRODUCTION OF VEHICLE COMPONENTS**

  - Optimization of raw materials and natural resources consumption.
  - Optimization of manufacturing processes and logistics.
  - Energy efficiency.
  - Management and recyclability of waste produced during manufacture.

---

- 4 VEHICLE MANUFACTURING**

In this phase, we abide by the requirements established by our clients, including those of weight, materials and recyclability.

---

- 5 VEHICLE USAGE**

With reduced weight of our parts, we are helping vehicles to consume less fuel and thereby produce fewer greenhouse gas emissions.

---

- 6 VEHICLE END-OF-LIFE**

All of our products are metallic and therefore 100% recyclable.
