

Gestamp Vigo is a company of the Gestamp Group, specialized in the production of metal stamped parts and metal welded assemblies painted by electrodeposition for the automotive industry.

The Management of Gestamp Vigo, aware of the impact of its activity on the environment, is committed to develop its activity from the protection, conservation and respect for the environment, assuming responsibilities in the defense of it and acquiring the following commitments:

- Promote active participation in the protection of the environment, training and awareness of the staff of Gestamp Vigo.
- Define Objectives and Goals aimed at environmental improvement, whose periodic review allows to guarantee its adequacy with respect to the policy and allows to guarantee the commitment acquired.
- Guarantee and maintain compliance with the environmental regulations applicable to the activities, products and services of Gestamp Vigo and the commitments that the company subscribes voluntarily, including the fight against climate change and air quality, as well as those derived from the requirements of interested parties.
- Exercise a sustainable consumption of natural resources, chemical substances, raw materials and water, ensuring their sustainable management and the conservation of water quality and natural environments.
- Cause the minimum Environmental Impact, promoting the development of processes and procedures that incorporate the available technical improvements, as well as continually assess risks to prevent, control and minimize environmental incidents.
- Promote the reduction of waste generated in the development of our productive activity, with the implementation and maintenance of a circular economy model (zero waste).
- Continuously evaluate the Environmental Aspects, establishing actions when necessary to guarantee environmental protection.
- Seek the Energy Efficiency of our processes and activities.
- Ensure that the current environmental policy is known to all interested parties through an adequate communication that allows them to know the aspects that affect the company

The Management will establish the necessary resources to ensure the application of the Environmental Policy in all areas of Gestamp Vigo.

Luís Cunha
