

# Gestamp obtains ISO 45001:2018 certification throughout its perimeter thanks to its integrated GH&S management system.

- TÜV Rheinland issues the ISO 45001:2018 accreditation certificate to Gestamp, reinforcing its commitment to the health and safety of its employees.

**Madrid, September 28, 2023.** Gestamp, a multinational company specialized in the design, development and manufacture of highly engineered metal components for the automotive industry, has been certified by the ISO 45001:2018 standard in all production plants, thereby consolidating certification throughout the group's perimeter, which demonstrates the company's commitment to occupational health and safety, under international standards.

María Alonso, corporate director of H&S and environment, and Miguel Poveda, Gestamp's health and safety manager, received the certificates from Elena García, Commercial Director of Systems and Product Certification at TÜV Rheinland Spain and Portugal, and Susana Vendrell, Local Key Account of Systems Certification at TÜV Rheinland Spain, the certification body that carried out the auditing processes.

The complete implementation of a Gestamp Health & Safety System in all the plants has been key during the audits of the prevention management system for a coherent and homogeneous evaluation in every different facility located in a wide variety of countries and cultures, integrating the diversity of each one.

From its creation in 2006 until now, Gestamp H&S System has been consolidated as an integrated management system at all levels of the organization and covers different fields of action, basing 79 "factors" of compliance linked to various areas such as the state of the facilities, machinery, the degree of implementation of preventive actions, continuous improvement, etc. The system is based on a balanced scorecard with a global indicator GHSI (Gestamp Health & System Indicator) that allows the safety system of all plants to be evaluated in a homogeneous and consistent manner and, thus, to apply the same standard to all the group's plants.

With the ISO 45001:2018 occupational health and safety standard structured and certified, Gestamp lays the foundations for having motivated employees and productive work processes, preventing workplace accidents, reducing absenteeism and increasing efficiency. Thus, highlighting its commitment to the safety and health of its people/employees.

## Sobre Gestamp

Gestamp is a multinational company specialized in the design, development and manufacture of highly engineered metal components for leading vehicle manufacturers. It develops products with an innovative design to produce safer and lighter vehicles, which offer lower energy consumption and less environmental impact. Its products cover the areas of bodywork, chassis and mechanisms.

The company is present in 24 countries with 115 production plants (5 under construction), 13 R&D centers and a workforce of around 43,000 employees worldwide. Its revenues in 2022 were 10,726 million euros. Gestamp is listed on the Spanish stock exchange under the ticker GEST. Sobre TÜV Rheinland

## Sobre TÜV Rheinland

TÜV Rheinland stands for safety and quality in virtually all areas of life and business. The company has been in business for more than 150 years and is one of the world's leading providers of testing services. It has more than 20,000 employees in over 50 countries and generates annual revenues of around 2.3 billion euros. TÜV Rheinland's highly qualified experts test technical systems and products worldwide, support technological and business innovations, train people in numerous professions and certify management systems in accordance with international standards. In this way, independent experts generate confidence in products as well as processes throughout global value-added chains and the flow of goods. Since 2006, TÜV Rheinland has been a member of the United Nations Global Compact to promote sustainability and fight corruption. Website: [www.tuv.com](http://www.tuv.com)

In Spain, TÜV Rheinland has been present for more than 30 years. The company has 800 employees spread over 14 branches and 39 ITV stations in Madrid, Castilla-La Mancha, Murcia, Navarra, Catalonia and Menorca.
